Wasp QuickStore Professional Point of Sale

www.waspbarcode.com

From the Sept. 2018 reviews of Point-of-Sale systems.

Along with barcode scanning and inventory control applications, WASP Barcode Technologies also offers a point of sale application well-suited for small to mid-sized retail businesses. Wasp QuickStore Point of Sale is available in three versions: Standard, Professional, and Enterprise, with users able to easily scale up if needed. A

complete software/hardware bundle is also available for each version of QuickStore

Multi-Store capability is available in the Enterprise version of QuickStore Point of Sale, with users able to track both customer and inventory details from multiple locations using a polling system that pulls data from additional locations into the main store every evening. The product accepts multiple tender types including cash, checks, credit and debit cards, and other custom tenders can be entered during product setup. Multiple tenders can also be used during a single transaction, and the product easily allows users to process multiple transaction types including special orders, returns, voids, and layaways from the point of sale interface.

QuickStore Point of Sale supports both standard computer monitors and touch screen monitors, with users choosing their either option during the setup process.

The product offers easy customer tracking capability, with the ability to monitor a complete customer purchasing history, demographics, billing and credit information, and any credit limits. Special pricing levels and automatic discounts can also be maintained for each customer if desired.

QuickStore Point of Sale contains solid inventory management capability, with users able to easily scan received items directly into inventory. The product also initiates an automatic ordering process when stock levels hit a certain point. The inventory module supports up to five pricing levels, and users can easily track inventory levels in multiple locations when using the Enterprise version of QuickStore Point of Sale.

QuickStore Point of Sale offers Sales, Inventory, and Customer reports. Users can run daily sales reports to track sales activity for each cashier, with the Sales Manifest report available for reports containing any discrepancies. Other sales reports available include Sales by Department, Detailed Item Sales, Top 40 Sales Report, and a Vendor Comparison Report. Inventory reports available in QuickStore include a Transaction Move Report, Transaction History Report, and Inventory Detail Report. Customer reports include Account Statements, Summary Invoice, or Customer

Balance Summary, with many other reports available in each of the categories. All

scanners, labels, keyboards, and monitors.

QuickStore Point of Sale offers good help options throughout the application, including the availability of short tutorials which guide users through the entire system setup process. A searchable knowledgebase is also available, with the ability to access and download any product updates from the support center as well. Wasp also offers a variety of training options including web-based training, on-site training, and guided web installation. Wasp offers toll-free technical support from 8:00 AM to 6:00 PM Central Time, and users can also fill out an online support ticket to request support.

Designed for niche retail markets such as gift shops, apparel, sporting goods, and service retailers, QuickStore Point of Sale works best for those that are not processing a high number of transactions at a rapid pace. The bundled version of QuickStore Professional is $1,995 and includes one Checkout Lane License, Point of Sale Shoe, Cash Drawer, Pole Display with Cable, Barcode Scanner with USB Cable, Autosense Stand, Thermal Receipt Printer with USB Cable, Power Supply, POS Keyboard with Magstripe Reader, and a USB Hub. A one-year product maintenance subscription which includes unlimited technical support is also included. A multi-store version is also available with the same features for $2,995. Custom solutions are also available from Wasp.

2018 Rating – 4.5 Stars
