It has been a whirlwind of activity in The CPA Technology Advisor offices during tax season (I'm sure you can ALL relate).

While you were off preparing tax returns and meeting with clients, we did a complete spring makeover on our magazine to make the information easier to consume and cross-reference. Ultimately, the changes are designed to save you time. (We hope you like the new look, and we welcome your feedback or any other suggestions you may have for our next "nip and tuck" session.)

We also spent a lot of time and energy during tax season preparing three NEW online programs for launch at [www.CPATechAdvisor.com](http://www.CPATechAdvisor.com). Make sure you check them out (new items are being added every day):

**The Accountants Video Network** is designed with specific channels that can help you grow your practice and increase your overall productivity and profitability through the use of technology. You can view product demonstrations, see and hear real-life success stories from other businesses like yours, and explore new technology tools that can help you be more efficient and effective in your daily routine.

**The NEW Online Buyer's Guide** is designed to provide you with a relevant web search solution that is quick, easy and comprehensive. You can conduct a search by company name, product name and/or product category. This means no more wasted time clicking irrelevant links in consumer-based Internet search engines.

**Tech2Go** is designed to keep you informed and (dare we say) entertained! This monthly roundtable podcast program features four of the members of our "Dream Team" discussing current technology issues and their impact on the accounting

profession. Plus, listeners can call in with their questions for advice on a particular
