*From the Oct. 2007 [Review of NFP](#)
[Accounting Systems](#)*

QuickBooks: Premier Nonprofit Edition 2007, one of Intuit's vertical editions of QuickBooks, combines the convenience of QuickBooks with basic nonprofit functionality to provide smaller nonprofit organizations with an easy way to track expenses, record donations and monitor pledges, as well as provide users with a solid financial product that can be up and running in hours, not days.

EASE OF USE/FLEXIBILITY – 5 Stars

After software installation, users can choose the nonprofit edition from the list of available program versions. In minutes, the system will reconfigure the software, and users will be able to access the sample nonprofit company for training purposes. The QuickBooks Overview and Setup function offers an overview of QuickBooks: Premier Nonprofit Edition, along with information on how to enter transactions, grants, vendors and items into the system.

Like all QuickBooks editions, the main screen contains the standard drop-down menu that provides access to all system features, including all nonprofit functions, company, vendors, customers and payroll. Below the menu bar are the QuickBooks Centers along with icons that provide access to frequently used functions. The standard QuickBooks flowchart is also found on the main screen and provides alternate access to system functions, as well. QuickBooks: Premier Nonprofit Edition is easily navigated with useful Help functionality found throughout the program. Data-entry screens are uncluttered and contain the necessary lookup options throughout.

MODULES/SCALABILITY – 4 Stars

FEATURES/FUNCTIONALITY – 4 Stars

QuickBooks: Premier Nonprofit Edition 2007 offers numerous system improvements, including a more efficient setup interview, better form customization, improved sales tax management, and a new search function that provides users with the ability to locate customer, vendor or financial information by entering relevant search criteria. Improved item management and improved links to both FedEx and UPS shipping programs makes it easier to track item shipments.

The Donations and Pledge screens are similar to the standard sales receipt and invoice data-entry screens that QuickBooks normally uses. Pledges can be recorded in the system and then linked to the incoming payment when received. Partial payments are easily tracked, allowing users to always know the amount that remains unpaid. Donors can be categorized by type if desired, and all donation types are supported, including cash, other assets and grants. Donor and vendor history can be viewed, including grant awards, donation and donation levels, and detailed contact information. The improved letter creation function allows for the creation of donor mailings from templates. It also enables users to create and maintain a mailing list and easily choose who should receive a letter or a donation request. The Nonprofit edition of QuickBooks uses the Unified Chart of Accounts (UCOA) that was developed by a group of nonprofit specialists. Nonprofit users may modify this default chart of accounts to meet their specific needs. Improved data integration with Microsoft Excel and Word makes it even easier to export data for spreadsheet creation and ensure better communication with donors and pledges.

REPORTING – 4.5 Stars

QuickBooks: Premier Nonprofit Edition 2007 comes with nine nonprofit-specific reports, including Biggest Donors/Grants, Donors/Grants report, Donor

array of support plans with varying prices. Detailed information is available from the Intuit website. Per-incident support plans are available at \$49 per call. Various user groups and online Help are available, as is the popular QuickBooks knowledgebase. Intuit also offers links to various QuickBooks Pro Advisors that may provide onsite assistance if necessary. A thorough Help function found within the software should answer many of the questions a new user might have.

RELATIVE VALUE – 4.5 Stars

QuickBooks: Premier Nonprofit Edition 2007 costs \$399.95. A five-user system costs \$1,499.95. And as previously noted, payroll service through Intuit is available for an additional charge. Easy to install, easy to navigate and easy to maintain, QuickBooks is an affordable, sensible choice for smaller nonprofits that have a limited budget and limited manpower.

2007 Overall Rating: 4.5 Stars

CPA Practice Advisor is registered with the National Association of State Boards of Accountancy (NASBA) as a sponsor of continuing professional education on the National Registry of CPE Sponsors.
