## Real Business

Aug. 24, 2009

HUNTSVILLE, AL – Cabinet NG (CNG), provider of document management and workflow software, today announced that Dr. Jan Davis, former NASA astronaut, will be the keynote speaker for its Collaborate Conference to be held September 24-25th at The Westin Huntsville in Alabama. This year's conference theme will be "Real Ideas for Real Business," and will focus on providing CNG users with the need to achieve exceptional results in today's marketplace. Davis will be addressing the benefits of exploration with a presentation titled, "Exploration – Past, Present, and Future."

The Collaborate Conference will provide CNG customers, VARs, partners and potential customers the opportunity to explore best practices, share their ideas and discuss their thoughts about document management. The event is designed to help clients new and old, maximize their current CNG investment with informative sessions, product training and collaboration opportunities.

Keynote speaker Dr. Jan Davis, former NASA astronaut, has logged over 673 hours in space and was initiated into the Alabama Aviation Hall of Fame and Alabama Engineering Hall of Fame. Davis started at NASA in 1979 to work for the Marshall Space Flight Center as an aerospace engineer. In 1986, she was named team leader in the Structural Analysis Division, and her team was responsible for the structural analysis and verification of the Hubble Space Telescope. Dr. Davis became an

astronaut in June 1987 and flew as a mission specialist on STS-47 (1992) and STS-60

experiences and how they relate to every day business at this year's event. And what better place to do that than in Huntsville, the heart of innovation," said Andrew Bailey, President of CNG. "The conference agenda will also include customer success stories, breakout training sessions, software demos, as well as a hands-on lab. We look forward to hosting this event each year where CNG users will acquire plenty of ideas and advice from other users and the many business partners on hand."

#### About Cabinet NG:

Cabinet NG's (CNG) document management software moves manual paper-based processes into efficient electronic workflows. As a result, businesses can increase productivity, reduce paper, save money and meet compliance requirements. CNG's intuitive, secure and affordable filing approach provides a way to achieve a paperless office that scales with business growth. Patent pending integration technology ensures smooth workflow and seamless connection to many existing Windows-based business applications. CNG software supports interdepartmental collaboration allowing users across the company to accomplish tasks more efficiently with centrally managed and instantly accessible documents. CNG also provides industry specific configurations to help industry verticals more quickly attain a paperless environment. For more information, visit [www.cabinetng.com](http://www.cabinetng.com).
