improve bottom line performance. CyberShift is a global leader in expense management, with its CyberShift Expense solution automating the processing and facilitating the management of employee business expenses, the second largest controllable expense after payroll.

CyberShift Expense provides the most complete and configurable full-service solution for expense management and automation. Going beyond just travel and entertainment, this solution can process all employee business expenses including fleet, cell phone, p-card and more. CyberShift Expense customers achieve greater control over costs, improved compliance and increased visibility into operations through data capture and reporting. CyberShift Expense is a Web-based application that streamlines the entire process of employee business expenses from submission to reimbursement. A typical company can realize a return on their investment in just a few months, reducing processing time and costs up to 60% through automation. With CyberShift Expense your organization can save even more on the entire range of employee discretionary expenses such as office supplies, mobile phones, fleet, meetings, p-card charges and more.
