AUTOMATING YOUR TAX

PUZZLE SINCE 1986

## PROFESSIONAL AUTOMATION SERVICES

PAS has over 25 years of experience in payroll services. Your company can rely on PAS to provide accurate, timely and cost effective outsourced and software solutions. The Diskfiler series of software integrates with almost all accounting software systems and allows companies to perform their own SSA/IRS and SUTA reporting. The software packages and service solutions accept W2/1099 data in virtually any format (Dynamics, MAS90, QuickBooks, Excel). If your firm has special requirements, we can provide customized solutions! Access to your data is only a few mouse clicks away by utilizing our web-based management system for W2/1099 and SUTA reporting. Employee payroll self-service (electronic W2 delivery) and electronic pay stub retrieval services are now available. Administrative personnel can easily submit data, perform changes and request reprints. We are very cost competitive, often less costly then doing it in-house, and provide an excellent track record and an impeccable reputation. Call today and remove this headache from your calendar!
