Feb. 17, 2010

The eTaxPortal product suite is available as a modular solution allowing corporations, partnerships and CPA firms to subscribe to the "modules" of the portal that they need or want. For example, a corporation or CPA firm might want to start with the eTaxCalendar so that they can begin to facilitate their filing, extension and payment obligations. Taking a phased approach can reduce risk associated with change management and internal adoption of a new technology. For more details, please see eTaxPortal.

Corporations
