If you have any questions or need help you can email us

FUND E-Z has succeeded in making fund accounting easy and understandable for thousands of small to medium sized nonprofits. We provide unlimited toll free support to our clients. This service, combined with our low price, is why we have been successful for over 14 years. Our clients learn how to setup their chart of accounts and departments to meet their specific needs. With FUND E-Z you can track restricted vs. unrestricted departments, programs, funding sources, functional departments, sites, grants, projects, or any logical subdivision that requires financial statements and budgets. FUND E-Z modules include: General Ledger and Bank Reconciliation, Payables and Purchasing, Receivables and Billing, HIPAA Compliant Medicaid Billing, Direct and Indirect Allocations of split-costs and overhead, Fund Raising, Financial Reporting, Utilities, Security, Import/Export, and our new Data Access Component (DAC). With DAC you can create custom reports using MS Access from either your raw data or from hundreds of FUND E-Z report work files. By using the DAC wizard, no training or Access experience is required. Download a full working demo of FUND E-Z from www.fundez.com.
