Livingston, N.J., April 15, 2010 – SWK Technologies, Inc., a Sage gold-certified developer and business partner for more than 20 years, recently achieved Diamond Level Authorized Partner status – the highest level achievement for Sage business partners based on sales volume and outstanding client service.

“Only a very small percentage of Sage’s business partners achieve this level of recognition,” says Anders Linden, Partner Advocate for Sage. “Time and time again, SWK has proven it is an outstanding Sage partner, not only on pure sales, but in its efforts to provide the most effective solutions for its clients.”

“Our new focus on Sage ERP X3 and our continuous processes to work with clients to achieve outstanding results are the reasons why we achieved Diamond Level status,” said Jeffrey D. Roth, Chief Executive Officer. “We also can’t forget our clients and business partners; their loyalty and commitment to SWK are incredible. For many reasons, we achieved this status based on our working relationships with all of our stakeholders.”
