Resources Capabilities and System Enhancements

Also Introduces Human Resources Management Software Solution

Dec. 16, 2010

TEMPE, AZ —CYMA Systems has released Version 12 of its award winning accounting and payroll software. The new software release delivers hundreds of new features, reports and enhancements to existing products based exclusively on customer requests.

The most notable addition to CYMA's accounting software is advanced Human Resources capabilities as part of the new HRexPress system. The HRexPress system is an integrated system of human resources, payroll, employee self service and reporting capabilities designed for complete employee management and benefit cost controls.

Other enhancements include advanced backorder processing in the Purchase Order, Sales Order and Inventory systems and significant improvements to Job Cost billing. Additionally, CYMA improved General Ledger reporting and added significant new capabilities to their Payroll system.

customers great visibility to their employee benefit costs and helps them quickly analyze and model the effect of benefit cost changes across their organization. With total benefit costs approaching 40% of the total cost of employees, it's critical for employers to have sophisticated tools to control these costs."

CYMA's HRexPress system consists of solutions for Human Resource Management, Payroll and Employee Self Service. It also contains a sophisticated, spreadsheet based financial reporting system and an automated alerts system. Future directions include electronic HR forms, FMLA tracking and OSHA injury reporting.
