Northfield, IL – Passport Software, developer of Passport Business Solutions business and accounting software, has announced the release of the latest version of PBS v. 12.00.09.

"The new '1-click sort' feature is the real highlight of
this release," said Alex Albergo, Passport's Director of Programming.
"V. 12.00.09 is an exciting step forward and one of our biggest releases
in terms of new features," continues Albergo.

"PBS now offers new 1-click sort fields, enhanced graphical screens in
Order Entry and Inventory Control, expanded General Ledger reporting options,
and a brand new Options menu in PBS Manufacturing. These developments contribute
to better overall usability and faster data access. It's exciting for
us to deliver what our customers tell us they need", said Muriel Miller,
Passport's Vice President, Sales and Marketing.

Since 1983, Passport Software, Inc. has provided superior financial, distribution,
retail, and manufacturing solutions that are reliable, easy to use and offer
great value. Windows, UNIX, and Linux versions are available. Passport has thousands
of software installations supported by a network of partners throughout the
US, Canada, and the Caribbean who offer product installation, implementation
and support, as well as a host of add-on solutions for a variety of industries.
