This release complements the latest version of Microsoft Dynamics CRM Online, which delivers Microsoft Dynamics CRM 2011 as an on-demand service from Microsoft's datacenters and was launched into 40 markets and 41 languages in January.

Microsoft announced that the new release scaled to 150,000 concurrent users in a single instance while delivering sub-second response times. It also features a familiar client based on Microsoft Outlook, point-and-click configurability, real-time dashboards and in-line business intelligence for performance and goal management.

Integrated within Microsoft Dynamics CRM 2011 is a new Dynamics Marketplace, available today in 20 markets and offering more than 1,400 partner offerings for solutions and services.

More information can be found at <http://crm.dynamics.com>.
