Software Corporation

Mar. 16, 2011

DALLAS – March 15, 2011 – [Tamlin Software Developers, Inc.](#), a leading provider of manufacturing and accounting software, was recently honored with two 2010 Performance Awards from [AccountMate Software Corporation](#):

- National Partnership Award in Recognition of Exceptional Performance for SQL Installations
- National Partnership Award in Recognition of Superior Performance for Maintenance Agreements.

“Our relationship with AccountMate continues to be successful for Tamlin because we are able to bring our clients food manufacturing and distribution solutions that integrate with AccountMate’s already-superior software,” says Linda Bryan, CEO of Tamlin Software. “As always, we will continue to support AccountMate as much as possible and hope our sales for 2011 are even greater than previous years.”

The Partnership awards are based on performance excellence and outstanding partnering. Some awards are based on revenue generation criteria, while others are based on a more subjective level decision involving exemplary partnering with AccountMate and its resellers or vertical solution providers. These awards will be presented in person at the three 2011 Roundtables in San Francisco, Chicago and Newark in September 2011.
