Summary & Pricing

It offers great customization options and form output capabilities, including document storage and PDF generation, and the new web-based backup utility is an excellent addition. The program is comprised of various modules, starting at $109 for the base package, plus $40 for a laser engine that supports most common forms and allows for plain-paper printing. Non-common laser forms are $10 each, and the Payroll bundle (940/941/943) is $10. The QuickBooks import utility is $35, and the universal import function for importing from legacy applications is an additional $25. An all-inclusive package, then, is priced at $209 per year. Renewal customers receive reduced pricing.
