The screenshot shows the 'QuickBooks Import Wizard' window. On the left is a green sidebar with a white silhouette of a person pouring water from a bucket. The main window has a light gray background. At the top, there are two sections: 'Please specify the type of data you would like to import:' with radio buttons for 'W2 Data' and '1099 Data' (selected), and 'Please specify the tax year of the data you would like to import:' with a dropdown menu showing '2011'. Below these is the '1099 Import Options' section. It includes a dropdown for 'Type of 1099 form you would like QuickBooks 1099 data be mapped to:' set to 'Form 1098-T - Tuition Statement', another dropdown for '1099 box you would like the money amount be mapped to:' set to '1098-T Box 1 Payments received for qualified tuition & related expenses', a text box for 'Please specify the 1099 threshold (1099-MISC default is \$600):' with '600' entered, and two checkboxes: 'Get amounts from 1099 Accounts Only. Uncheck in order to get amounts from All Allowed Accounts.' (checked) and 'Run in Debug Mode (only check this option if asked to do so by W2 Mate support team)' (unchecked). At the bottom right are four buttons: '< Back', 'Next >', 'Cancel', and 'Finish'.

W2 Mate – BEST Value in W2, 1099 and 1098 Software for Accountants and Businesses.
