The screenshot shows the 'QuickBooks Import Wizard' window. The title bar reads 'QuickBooks Import Wizard'. The window is divided into two main sections. The left section has a green background with the text 'QuickBooks Import Wizard' and an illustration of a person pouring liquid from a pitcher into a bucket. The right section is titled 'Type of Data to Import and Tax Year'. It contains two columns of options. The first column is 'Please specify the type of data you would like to import', with radio buttons for '1099 Data' (selected) and '1042 Data'. The second column is 'Please specify the tax year of the data you would like to import', with a dropdown menu showing '2011'. Below these are '1099 Import Options'. The first option is 'Type of 1099 form you would like the QuickBooks 1099 data be mapped to', with a dropdown menu showing 'Form 1099-B - Proceeds From Broker & Dealer Cashes, Transactions'. The second option is '1099 form you would like the money amount be mapped to', with a dropdown menu showing '1099-B (Box 1: Stocks, bonds, etc.)'. The third option is 'Please specify the 1099 threshold (1099-MISC default is \$2000)', with a text box containing '500'. There are two checkboxes: 'Get amounts from 1099 Accounts Only. Unchecked in order to get amounts from All Allowed Accounts.' (checked) and 'Run in Debug Mode (only check this option if asked to do so by 1099-MISC support team)' (unchecked). At the bottom are four buttons: '< Back', 'Next >', 'Cancel', and 'Finish'. Below the window is a blue banner with the text 'W2 Mate - BEST Value in W2, 1099 and 1098 Software for Accountants and Businesses. Visit www.W2Mate.Com'.

Broker and Barter Exchange Software

Prints 1099-B Recipient Copy (Copy B) on regular paper instead of laser forms.
