scheduling module for its Advance Practice Management software.

Taija Sparkman • Oct. 16, 2012

Commercial Logic recently released APS Advance Resource Planning, a staff scheduling module for its Advance Practice Management software. Commercial Logic is a provider of practice management software and consulting services for accounting firms.

APS Advance Resource Planning provides the tools service firms need to allocate and schedule staff and resources. Firms can assign available team members to certain client engagements, ensuring that each job is properly staffed and performed efficiently and effectively. The solution allows for budgets and schedules to be rolled from the previous year to the next and adjusted accordingly.

Resource Planning integrates into the Advance Practice Management solution to for a seamless workflow. It is designed to help firms gain a better understanding of their staff capacity, making sure that the right people are doing the right jobs at the right time for the right billable rate.
