SmartVault®

SmartVault, provider of cloud-based document management solutions, announced today that its patented Toolbar technology for QuickBooks has been extended to QuickBooks Online. SmartVault's integration with QuickBooks Online will allow users to attach and view receipts, bills, invoices and other documents directly from QuickBooks Online, allowing for a paperless workflow solution.

“QuickBooks Online is experiencing record growth as small businesses are looking to adopt an online accounting system that gives them access to their data whenever they need it,” said Eric Pulaski, founder and CEO of SmartVault. “Integrating that availability with anytime-anywhere access to source documents delivers a true paperless office and literally transforms the way businesses operate. We will remain committed to delivering solutions that help businesses drive growth in a meaningful way.”

SmartVault for QuickBooks Online was developed using the SmartVault Software Developers Kit. SmartVault released the SDK in the fall of 2011 to allow for direct
