[Cloud9 Real Time, a cloud solutions provider](#), was recently recognized during the 2012 UP Awards as one of the Best Cloud Hosting companies of 2012. Cloud9 Real Time was listed among Dell, Amazon and Rackspace. The UP Awards recognize cloud services for their focus on excellence, developments, trends and impact on the Global Economy and Society.

“It’s a great honor to be a finalist with the *big boys* such as Amazon and Dell,” said Robert Chandler, Cloud9 Real Time President/CEO. “We are the only licensed commercial host of Intuit and Sage on the list which shows that our specialization of application hosting is a key niche. Cloud technologies are advancing everyday and we are excited to be among the leaders in the industry.”

[The list of finalists](#) included Citrix Systems, Samsung Electronics, Hewlett-Packard, Apple AppStore and a host of other cloud service providers. Many organizations, such as accounting firms and small businesses, use cloud hosting providers to gain access to their applications and data anytime, anywhere.
