National Top Workplaces list was determined solely by feedback gathered through an objective employee survey.

Jan. 31, 2013

Baker Tilly Virchow Krause, LLP ([Baker Tilly](#)) is pleased to announce that it has been named one of the National Top 150 Workplaces by WorkplaceDynamics. The National Top Workplaces list was determined solely by feedback gathered through an objective employee survey.

The survey was conducted by WorkplaceDynamics, LLP, the leading on-demand employee survey provider, in conjunction with 30 leading regional newspapers. Baker Tilly participated in the Milwaukee Journal Sentinel and the Minneapolis Star Tribune's Top Workplaces 2012 programs.

Tim Christen, Chairman and CEO of Baker Tilly stated, "It is important to us that our employees know they are highly valued and that we are creating an environment where they are able to perform at their personal and professional best. It is an honor that our employees recognize Baker Tilly as a top workplace."

The survey uses a proprietary set of 22 questions to rank companies. The survey data showed that employees most want to work at companies with high levels of organizational health. Companies that set a clear direction for their future; execute well; and bring real meaning to work are the healthiest.

Details about the National Top Workplaces, a full list of the Top 150 companies, the survey methodology, and factors that drive organizational health are available at [www.topworkplaces.com](http://www.topworkplaces.com).
