Intacct, provider of cloud-based financial management and accounting software, recently announced it has partnered with ERP and accounting consulting firm **BTerrell Group**.

“It thrills me to offer Intacct, a best-of-breed-on-demand ERP product, to our prospects as another option,” said Brian Terrell, Managing Partner of BTerrell Group. “Intacct’s cloud-based system offers our clients flexibility, access, and lower technical infrastructure requirements than on-premise accounting platforms. All the while, we remain strongly committed to our client base and prospects who prefer on-premise solutions.”

As an Intacct Business Partner, BTerrell Group will sell, implement, support and develop enhancements for Intacct’s cloud financial solutions. The American Institute of CPAs named Intacct a preferred provider of financial management and accounting software, making it the only vendor to receive such recognition.

“One of the areas that really attracted us to Intacct is the robust cloud-based development tools that allow us to customize and extend Intacct to deliver comprehensive solutions for our clients,” said Terrell. “We are very excited about the opportunity to create unique extensions and vertical industry solutions built on the Intacct platform that deliver increased value to our customers and expand the scope of our business.”

“The Intacct Business Partner Program continues to attract top Sage partners looking to expand their portfolio with a cloud-based system,” said Taylor Macdonald, Vice President of Channels for Intacct. “More and more businesses are moving their financial applications to the cloud to take advantage of the significant cost savings, improved speed of innovation, and superior return on investment.

BTerrell Group is a great addition to our partner program and I look forward to
