Epson WorkForce 60 Printers Deemed Most Dependable for the Job

Feb. 22, 2013

Since 1999, the Academy of Motion Picture Arts and Sciences has consistently selected Epson printers for its color credentials printing at the annual Academy Awards ceremony, which airs Sunday, Feb. 24. The Epson WorkForce 60 was chosen due to its reliability, as it effortlessly prints thousands of credentials behind the scenes.

“Year after year, I rely on Epson printers to seamlessly print event credentials,” said Deborah Cahn, EC Solutions. “As the credential vendor for the Oscars, I selected the Epson WorkForce 60 printers because they have proven to be the most reliable for the demanding job of printing thousands of borderless, color credentials.”

The WorkForce 60 delivers fast single- and double-sided print speeds – 15 ISO ppm black and 7.1 ISO ppm color single-sided; 7.4 ISO ppm black and 4.7 ISO ppm color two-sided – to help keep businesses running at full speed.

Packaged in a sleek industrial design, it also includes a 250-sheet input capacity, and provides a reliable solution to small business owners that require professional looking prints in high volume, making it an ideal choice for the Academy of Motion Picture Arts and Sciences biggest night.

More information on the WorkForce 60 is at www.Epson.com.
