Aplos Software announced its cloud fund accounting software can now securely import transactions directly from financial institutions.

Aug. 19, 2013

Aplos Software announced its cloud fund accounting software can now securely import transactions directly from financial institutions. Aplos provides cloud-based accounting software for nonprofits and churches.

“With the power of Cloud technology, a nonprofit of any size can benefit from fast, secure and reliable software designed to meet their needs,” said Tim Goetz, CPA and co-founder of Aplos Software. “By partnering with Yodlee, an industry leader in financial data aggregation, we are helping nonprofits spend less time doing data entry and more time accomplishing their mission.”

The new bank integration app securely connects to financial institutions using Yodlee, giving users the ability to review and import transactions into their bookkeeping. The new feature is designed to help organizations save time and reduce the need for manual entry.

Aplos Accounting, a cloud-based fund accounting software, was designed to simplify the fund accounting process for nonprofits and churches. The bank integration app will be available for \$4.99 per month. Other available apps for Aplos Accounting include Contributions Management, Accounts Payable, Budgeting, Bank Reconciliation and Check Printing. Users can access Aplos Software products from any location or device with an Internet connection, have multiple users with role-based permissions, and enjoy automatic data backup. Aplos Accounting pricing starts at \$11.99 per month for the base accounting software for one user. Pricing increases

to \$35.94 per month for up to five users with all available apps enabled. Nonprofits
