Connect, collaborate and grow with CCH Axxess. The CCH Axxess™ app provides CCH Axxess customers with the ability to manage their work on the go. At its core is the firm's common client database, which lets you access essential client information from anywhere. You can also enter time, view firm documents, easily publish documents to clients' portals, view a client's balance, payments, and invoices – all through your mobile devices. With real-time, shared access to client information, you'll be able to advance your business and deliver more value to clients who have come to expect on-demand service.

Having client information at your fingertips helps you stay in touch and access critical information whenever you need it. The app makes collaboration with clients easier by allowing you to access and share information from anywhere. Your clients won't have to wait until Monday to get the documents they need, and you won't have to go to the office on the weekend to send them over. [Learn more today!](#)
