TheQBShow.com

These have nothing to do with accounting, they're just great little things I learned about a few weeks ago and make working online so much easier!

For what it's worth, the browser I use is Chrome, so I can't speak to whether some of these work in any others.

- Hitting CTRL + Enter adds .com to the end of any word in the URL bar. [*Ed. Note:*

Link to a specific point in a YouTube video – this will come in very handy, now that we've gone all video for **The QB Show**! You just put #t= to the end of the video URL, along with m for the minute, s for the second. For instance:
<https://www.youtube.com/watch?v=Un-xLrv9F2Q#t=21m53s> will take you directly to the point in our show where we're doing a screen share.

Hope you enjoy – just a few things I wanted to share!

Stacy forgot to mention that her RadioFreeQB program has changed it's name! Introducing **TheQBShow**. Check it out.
