CheckPoint research suite & many write-up applications

- Hosted & leased versions available as part of Virtual Office CS
- Barcode scanning imports information from W-2s & K-1s for lower complexity returns while supporting complex features requiring manual entry like K-1s with special allocations at the same time
- New for 2010, UltraTax can automatically e-mail clients when returns are accepted for e-filing with tax authorities
- Highest electronic filing acceptance rates for 2008 & 2009 tax years of all products reviewed

## **POTENTIAL LIMITATIONS:**

- Scan & organize tools in the Thomson Reuters suite require users to also license FileCabinet CS or GoFileRoom
- Limited support for multi-office firms without using Virtual Office or Citrix/Terminal Services.

## **EXECUTIVE SUMMARY & PRICING:**

UltraTax CS is a good fit for tax practices of all sizes and volumes. Several software delivery options are available to users. Users may elect to receive a traditional disc to load on a PC or server, may download the software directly from Thomson Reuters or, as previously noted, select a hosted solution. Pricing for the traditional CD/download-based option starts at \$2,375 for unlimited federal 1040 returns. Other federal and state modules are available on a per-return or unlimited basis. The hosted solutions are available through purchase or lease and are available at a set monthly fee.
