Avalara has partnered with AccountMate and their channel partners to provide customers with sales tax solutions designed to manage complicated and burdensome tax compliance obligations imposed by state, local, and other taxing authorities in the U.S. and internationally. [Avalara](#) is a developer of cloud-based software that delivers a broad array of compliance solutions related to sales tax and other transactional taxes.

Specifically, [AccountMate](#) now integrates Avalara's software as a service (SaaS) offering for sales tax management directly into its own application. As a result, customers can now use Avalara's AvaTax™ capabilities from within AccountMate's existing workflow to automatically calculate the final sales tax amount on every invoice. This eliminates the tedious work and complexity of calculating taxes across multiple jurisdictions and helps businesses focus on their core offering.

“We’re pleased to join forces with Avalara, a recognized leader in cloud-based sales
