Nov. 06, 2014

AuditFile has announced it will soon fully integrate its cloud-based audit system with industry leading bookkeeping tools, [QuickBooks Online](#) and [Xero](#). As the first entirely cloud-based audit, review, and compilation solution for CPA firms, AuditFile will be the only software with the ability to connect with these tools on this level.

The unique integration will allow accountants to directly pull the trial balance or entire general ledger from their clients in a simple and user-friendly way when performing audits, reviews and compilations. “We plan to be able to continually

download updated versions of the general ledger so auditors can leverage their

“This is a feature that many CPAs have expressed a strong interest in and AuditFile is excited to meet this demand” said Co-founder, Kevin Bong. “Cloud-based tools like QuickBooks Online and Xero are opening the doors for incredible advances in efficiency. AuditFile integrating with these tools and expanding to others in the future will revolutionize the audit process.”
