on jurisdictions where we have members, we want to take an active leadership role in helping to alleviate the devastating effects of this humanitarian crisis by supporting the heroic efforts of Doctors Without Borders,” said Peter Appleton Jones, Chairman & Founder of TIAG and TAG Foundation trustee. “The impact of politics and the media has only been to sow fear, hysteria and more sadly, division. We want to change that with positive efforts and energy.” Mr. Appleton Jones adds, “This and other TAG Foundation initiatives speak to the very heart of what TIAG and the TAG Alliances are about.”

Doctors Without Borders/MSF currently employs 263 international and around 3,084 locally hired staff in the region. The organization operates six Ebola case management centers (CMCs), providing approximately 600 beds in isolation. Since the beginning of the outbreak, MSF has sent more than 700 international staff to the region and admitted more than 5,200 patients, among whom around 3,200 were confirmed as having Ebola. More than 1,200 patients have survived. More than 1,019 tons of supplies have been shipped to the affected countries since March.
