announced the launch of the web-based features of its new Yearli product, a comprehensive W-2 and 1099 reporting software and online filing platform for businesses...

Dec. 14, 2014

Professional tax and accounting software and resource provider Greatland has announced the launch of the web-based features of its new Yearli product, a comprehensive W-2 and 1099 reporting software and online filing platform for businesses.

Yearli serves as the most complete federal, state and recipient W-2 and 1099 reporting platform on the market for small to mid-size businesses and professional accountants, and is designed to help businesses generate, file, and deliver all related forms. With Yearli, organizations can choose the product that most closely meets their W-2 & 1099 filing and support needs. The Yearli W-2 and 1099 reporting platform has three options (Core, Performance, and Desktop) designed to fit any budget or business need.

Yearli's web-based options, Core and Performance, have been launched and are available for businesses to use for the 2014 tax reporting season:

- **Core**

Perfect for businesses with a small number of W-2 and 1099 forms to file, this free online reporting program leads companies through the filing process to meet all their filing requirements in a matter of minutes. There is no annual subscription for a Yearli Core account and creating an account requires no credit card. Once an account is created, filing fees are calculated on a per form basis. Additional benefits include:

- Federal filing

- State reporting

for businesses that need the added convenience and security of TIN Matching or that need to file additional 1099 form types. With Yearli Performance, users receive form volume discounts . The \$79 annual subscription fee includes TIN matching, as well as all the features in the Core product plus:

- TIN matching
- Expanded 1099 form library
- Enhanced Expert Phone support
- Volume discounts on form filing

“We are excited to officially launch Yearli’s web-based features and serve our customers who previously used Greatland’s [speedEfiler.com](#) and [FileTaxes.com](#) platforms. Our team has received positive feedback on Yearli, and we look forward to offering its full capabilities,” said Bob Nault, Greatland’s CEO. “The three platforms featured in Yearli provide the complete package for businesses looking for a fast, efficient and comprehensive program to handle their federal, state and recipient reporting needs.”

In addition to filing capabilities, both web-based options offer expert help, guaranteed to answer customers reporting questions. Keeping up with the rules, regulations and many confusing details surrounding W-2 and 1099 filing can be difficult, but Greatland’s expert service team is available to help guide users through the filing process, with instant answers and assistance.

Yearli’s Performance platform, which also provides TIN Matching is designed to help businesses avoid penalties. Originally implemented by the IRS, TIN Matching allows a 1099 filer to check the TIN (Taxpayer Identification Number) and a specific name to ensure that there is a match for it in the IRS database. This process helps filers avoid IRS penalties and notices for missing TINs or incorrect Name/TIN combinations. The automated TIN matching service integrates with IRS records for hassle-free

validation and is the best in the industry, delivering an easy-to-understand TIN

your business needs. This means customers will not have to worry about printing your W-2 and 1099 forms or stuffing envelopes and mail recipient copies this January. After submitting the data through Yearli, all copies are printed and mailed directly to recipients. Yearli can even reprint and mail W-2 and 1099 forms to recipients.

Available in Yearli's Core and Performance platforms, Greatland also offers an online retrieval system where forms are posted in a secure online portal for recipients to download. Recipients will receive an email with a secure link to login and download their form – making resending forms easier than ever.

In addition to Yearli's web-based capabilities, it also offers a desktop version, ideal for accountants and businesses with large form filing volume. This robust software package is designed to help simplify the entire W-2 and 1099 reporting process. The Desktop version requires a \$399 annual subscription and offers discounted rates for bulk filing. With an intuitive navigation, Yearli Desktop simplifies the entire W-2 and 1099 reporting process. The downloadable version allows you to download the software online, directly to your computer. Yearli also offers a [pricing calculator](#) to allow companies to easily find the best option for their filing requirements.
