Dec. 10, 2015

**NETSUITE**

The real-time expense management application [Abacus](#), has completed its integration with [NetSuite](#), the leading integrated cloud business software suite, to offer NetSuite customers a real-time solution for tracking, analyzing and reimbursing corporate expenses. Organizations can now sync reimbursable and corporate card spend to their NetSuite accounts, automating transaction record creation and reconciliation to deliver a more seamless bookkeeping experience and free up finance teams to focus on more strategic initiatives.

This integration comes on the heels of Abacus' platform enhancements, designed to meet the needs of large organizations with as many as 1,000 employees. By partnering with NetSuite, which offers enterprise resource planning (ERP) software

for midsize and enterprise organizations, Abacus can serve those businesses better

Key benefits of the integration include:

- **Continuous accounting sync:** Data from Abacus to NetSuite is continuously synced between the systems to provide real-time visibility into cash flow and keep NetSuite as up to date as possible.
- **The flexibility to customize accounting sync fields:** NetSuite customers are able to map fields for departments, locations, clients, projects, jobs and more in Abacus to create a complete data sync.
- **Easy corporate card management:** Abacus syncs with more than 16,000 financial institutions so businesses can connect all of the company's corporate cards to a single dashboard, which allows them to quickly reconcile transactions each month and then sync them to NetSuite.

Jaya Bearely, controller of NetSuite customer Vouch Financial, said, "An important consideration in choosing NetSuite as our ERP was how well it integrated with our other financial systems. As Vouch continues to scale, we need solutions that can keep pace with our business. We're big fans of Abacus and were thrilled to learn about their SuiteApp integrated accounting sync. Now we can keep our employee expense management on autopilot, freeing us up to focus on strategic initiatives."
