Hello. It looks like you're using an ad blocker that may prevent our website from working properly. To receive the best experience possible, please make sure any blockers are switched off and refresh the page.

If you have any questions or need help you can email us

- Capture and enter bills via your phone's camera
- See notifications of bills to approve and pay – all on one easy to access dashboard
- Approve bills with the ability to see bill details, invoice images and notes from other team members
- Make payments with the flexibility of adjusting payment amount, bank accounts to pay from and the payment process date
- Review payment history and approval history with full access to original invoices and complete trail of approvers

Accept electronic payments and get paid 2x-3x faster:

- Keep track of open invoices – all in one easy to access dashboard
- Review invoice and customer details
- Receive push notifications when a payment has been received

Improve Efficiency:

- Sort bills by due date, vendor name, amount, or time pending in the queue
- Send notes to your team members to easily keep them in the loop
- Receive push notifications, so you can get alerts as soon as a bill is ready to approve or pay
- Protect your data with secure access and increased security with TouchID and passcode authentication
- Easily call or email vendors and customers from your phone, and view all bills, invoices, and past payments to/from them.
- If you have multiple organizations within your company, you can easily switch without having to sign out

What our customers have to say:

“We no longer have to process and cut checks manually; billing and reporting are now generated electronically. With Bill.com, we're letting technology do the 'heavy

lifting.”
