Manager

The solution, available for deployment on-premise or in the cloud, manages the precise tracking, validating, and governing of tax exemption certificates.

Sep. 13, 2016

Thomson Reuters has released ONESOURCE Indirect Tax Certificate Manager 2.1, which optimizes the tax certificate management process for customers by creating additional efficiencies including faster data retrieval for reports and a streamlined process for dropship certificates. The solution, available for deployment on-premise

or in the cloud, manages the precise tracking, validating, and governing of tax

Key new features of the solution include:

- **Support of dropship certificates** which allows users to define and customize the supported dropship states to meet their specified needs.

- **Increased reporting efficiency** as a result of faster data retrieval for reports. The enhancement will provide customers with better performance and more accurate reporting results.

- **Determination integration** ensures that read zones and authorities content is always current and aligned, eliminating the need for monthly administrative maintenance by customers.

- **Additional platform support** capabilities enable the solution to stay current with market-leading platforms, which now include Tomcat 8, Java 8, Linux 7.1 and JBOSS 6.4.

ONESOURCE Indirect Tax Certificate Manager 2.1 is available now. For more information on the new release, visit https://tax.thomsonreuters.com/products/brands/onesource/indirect-tax/certificate-manager/.

ONESOURCE Indirect Tax offers end-to-end global software solutions and consulting services to streamline tax planning, indirect tax determination, calculation, reporting processes, and local tax compliance for small- to medium-sized businesses and global 2000 multinational corporations.
