SwipeClock's automated, cloud-based time and attendance solutions, providing accounting firms and their clients with the tools and insights they need for complete time and attendance tracking.

Nov. 10, 2017

THOMSON REUTERS

Thomson Reuters has announced the integration of Accounting CS Payroll with **SwipeClock's** automated, cloud-based time and attendance solutions, providing accounting firms and their clients with the tools and insights they need for complete time and attendance tracking.

Thomson Reuters Accounting CS Payroll, a batch-oriented, fully automated solution, quickly performs much of the calculation of payroll processing for greater accuracy. SwipeClock supports firms' payroll process with a complete array of punch data automatically delivered for processing. Real-time punch data is collected through a number of different clock options, with support for remote work places, web interfaces and multiple hardware clock types.

“The SwipeClock integration with Accounting CS Payroll allows firms to offer a unified solution where employee records and timecard data are shared seamlessly

with payroll information, resulting in a smoother and more efficient process for
