Changes the Way Corporations Manage Tax

The new Advantage platform with an integrated collection of products allows users to track projects, manage documents, and collaborate with internal and external teams to improve financial controls through task automation and risk management.

Feb. 14, 2018

Bloomberg Tax

Bloomberg Tax has launched Advantage, a suite of software solutions for tax and accounting professionals that covers processes related to fixed assets, federal and state tax, NOLs, provision analysis, and sales and use tax rates. The new Advantage platform with an integrated collection of products allows users to track projects, manage documents, and collaborate with internal and external teams to improve financial controls through task automation and risk management.

“Driven by client demand for an easier way to effectively manage corporate tax and

If you have any questions or need help you can email us

- Access to award-winning products like Bloomberg Tax Fixed Assets™, State Tax Analyzer™, and Sales Tax Rates™
- Automatic legislative updates eliminate the need to navigate complex business regulations and corporate tax rate changes that aid in identifying tax savings
- Centralized tax and accounting data eliminates redundancy and provides professionals with the ability to perform multiyear, multi-jurisdiction, and multi-entity analysis
- Streamlined administration provides tighter controls over security and accessibility policies
- Improved financial controls through spreadsheets, versioning, and audit trails reduce statement risk

The Advantage platform is available now. To learn more, visit www.bloombergtaxtech.com/advantage.
