This is a supplement to the [Dec. 2005 review of High-End Accounting Software](#).

Due to space limitations in the print edition of our magazine, some offerings by Sage Software were not included in the review section. Although we were unable to review these additional applications, Sage also offers the following programs for the high-end accounting market: Sage MAS 500 ERP and Sage Pro ERP.

Sage MAS 500 ERP

Version 7.0 of Sage's MAS 500 ERP focuses on two primary themes: Improved access to information and streamlined distribution processes. The system is scalable to meet the needs of growing businesses with revenues ranging from \$25 million to \$250 million. This SQL Server-based application is the most powerful member of the Sage Software family of business management applications, offering integrated solutions that automate the following areas of business management:

- Core and Advanced Financials
- Customer Relationship Management (CRM)
- Project Accounting (including time and expense tracking)
- Wholesale Distribution
- Discrete Manufacturing
- Warehouse Management
- Human Resources and Payroll
- e-Business
- Business Intelligence

You can obtain more information about this product at <http://www.sagesoftware.com/mas500>.

Sage Pro ERP

With full source code availability, Sage Pro ERP is customizable to suit unique

business requirements and future growth. Available in two editions with a full suite
