well as additional features and tax-specific resources.

Jan. 01, 2006

From the January 2006 Issue

Every January, The CPA Technology Advisor provides a special Tax Season Survival Guide, offering useful tips on preparing for the upcoming tax preparation season, as well as additional features and tax-specific resources. This year's Guide covers a variety of subjects, from a feature about tax and financial planning, to integrating payroll services into your practice. Additionally, our Executive Editor introduces the 2006 team of editorial staff and contributors. You are likely to recognize many of them, as they are all well-known and respected professionals, many of them are also practicing CPAs. Each of the members of this Dream Team offer a few tips for tax season, and are dedicated to improving the professional lives of America's practicing accountants. □

Meet America's Tax & Accounting Technology Dream Team

Public accounting is a very special profession.

I'm sure you each vividly remember your first day on the job, fresh out of school and ... dumb as a box of rocks. Of course, you didn't know the last part. You (foolishly) assumed that your education had readied you for the actual PRACTICE of public accounting.

[An Introductory Marketing Guide to Building a Payroll Business](#)

You may have actively avoided payroll preparation entirely, or you may be preparing only your firm's payroll. Or you may have one or two payroll clients. And you've been hearing others talk about their payroll practices. You may have even seen for yourself: Payroll can be profitable.
