will enable CBIZ to enhance the services it provides clients by using and reselling RAMI's Asset4000.

Apr. 30, 2008

BOSTON – April 30, 2008 — CBIZ (NYSE: CBZ — www.cbiz.com), the nation's leading professional business services consulting firm, and Real Asset Management International (www.realassetmgt.com), which develops software for optimizing fixed asset management, today announced an agreement that will enable CBIZ to enhance the services it provides clients by using and reselling RAMI's Asset4000.

CBIZ is the largest benefits specialist and one of the largest accounting, valuation and medical practice management companies in the U.S.

“Asset management is a cornerstone of fiscal responsibility, touching on many critical areas,” said Marcus Scholes, Vice President of U.S. Operations for RAMI. “These include physical tracking, determining insurance premiums and property taxes, establishing proper valuation during litigation, mergers and acquisitions or when seeking financing, and for developing the most beneficial depreciation strategies.”

CBIZ will use Asset4000 in its Valuation Group, which provides financial advisory, valuation and litigation services. The group's clients include school districts, municipalities, counties, insurance risk pools, private sector companies, hospitals and healthcare organizations. CBIZ will also offer Asset4000 to clients who have opted to retain asset management functions in-house.

“Asset4000 will provide bottom line savings for CBIZ and our clients because it will help us realize efficiencies by consolidating varying systems that were in use in

different CBIZ offices,” says David Bowerman, President of CBIZ Valuation Group.
