If you have any questions or need help you can email us

allowing you to accomplish accounting and document management in a single step.

Cabinet Books streamlines QuickBooks data entry and document filing into one consistent and efficient electronic process, saving time, reducing errors stemming from redundant data entry and increasing productivity.

With Cabinet Books, you can tag any document as a QuickBooks transaction. The document is then filed in the SAFE document management system, while a corresponding transaction is automatically created in QuickBooks with amounts and transaction appropriate information. The result is a correctly filed document and a new QuickBooks transaction, all in one simple step.

Cabinet Books is available free with any SAFE license or SAFE CLOUD subscription.
