Red Wing, MN – April 20, 2011 – Red Wing Software, Inc. announces the release of CenterPoint Payroll Software version 7. The new version provides enhancements across the entire program from processes and setup to over 35 expanded reports. Users will find the software more flexible and intuitive than ever.

Paying employees is more intuitive with a revised and more natural placement of tabs, guides, and messages within the system. Users can quickly and easily modify time that was imported from time sheets. Also included, is a process for employers to pay the employee's FICA, a process otherwise known as Gross Up.

“CenterPoint Payroll users will find that their voices were heard for the release of version 7, as all enhancements were derived from customer comments and suggestions,” says Jon Isackson, Red Wing Software Product Manager. “Users will find expanded payroll processing, additional setup options and improved Web services.”

Version 7 also includes improvements to CenterPoint Payroll setup. Employees can now be set up to receive pay via both direct deposit and a check in the same pay run. Users will find the check stub design tool has been improved to include additional fields for translation into languages other than English. Earnings were also enhanced to allow users to configure a Third Party Sick Pay earning which excludes all taxes, but includes employer taxes for Medicare and Social Security.
