The W-2/1099 Filer system has broad compliance capabilities that extend to all 1099, 1098 and W-2 needs, along with 940, 941 and 943 filing, and free integrated e-filing to federal and all states. It offers great customization options and form output capabilities, including document storage and PDF generation, and the new webbased backup utility is an excellent addition. The program is comprised of various modules, starting at \$109 for the base package, plus \$40 for a laser engine that supports most common forms and allows for plain-paper printing. Non-common laser forms are \$10 each, and the Payroll bundle (940/941/943) is \$10. The QuickBooks import utility is \$35, and the universal import function for importing from legacy applications is an additional \$25. An all-inclusive package, then, is priced at \$209 per year. Renewal customers receive reduced pricing.
