AccountantsWorld.com

Best Firm Fit

CyberCabinet is a good fit for small firms that want to move to a cloud computing model. The suite of online applications from AccountantsWorld provides a "leave the driving to us" model for dealing with all of the IT infrastructure issues related to an on premise solution that can be particularly frustrating to deal with for sole practitioners and small firms that typically don't have any internal IT staff.

Strengths:

- Generous 5Gb storage space included in base pricing.

- Portal application provided with Website Relief website application
- Integrated with online practice management, payroll and accounting applications
- 100% browser based SaaS (Software as a Service) solution
- Customized folder structure
- "CyberDrop" folder lets you drag and drop files into CyberCabinet from your PC
- "CyberSend" adds emails from Outlook, with attachments, to client folders instantly

Potential Limitations

notifications when files are uploaded to their portal.

- You can setup a default folder structure for organizing the files for each client. This can include sub-folders and the ability to establish access rights for the various folders. This template is applied to all clients and can be modified as appropriate for individual clients.
- The document hit list resulting from searches includes the file name, file type, upload date, who it was uploaded by and whether or not the client has access to the file in their client's portal.
- You can download an entire folder with sub-folders onto your PC for local access when you need files on the go.
- You can save Outlook emails and the file attachments directly to CyberCabinet via the CyberSend button. You can store the message in its native msg format, as an html file, or a simple text file.
- CyberDrop is a feature that lets you setup a folder on your PC that will be monitored for upload to CyberCabinet. You can put files into this folder as you would with any Windows Explorer folder. This includes saving Office files directly into CyberDrop.
- You can print reports from Payroll Relief and Accounting Relief applications directly into CyberCabinet.
- Clients can scan and upload their own documents directly into CyberCabinet and they can be accessed from within the Accounting Relief application.
- Base product includes an unlimited number of client portals

Summary & Pricing

CyberCabinet provides a practical solution for firms that want to make the move to an online based information system, aka cloud computing. CyberCabinet's integrated portal solution simplifies the process of getting started down the online

path. The price for CyberCabinet is $595 annually for up to 5Gb of storage, for
