[AccountantsWorld](#), provider of cloud-based solutions, training and information resources for accounting professionals, recently announced a major update to its cloud-based Accounting Relief solution.

Enhancements and new features include improved user experience and functionality and comprehensive mobile capabilities. Accounting Relief is now compatible with all major browsers and screens display pop-up buttons showing help information, giving users access to the information they need with just a click of a button. Customers can download the free mobile app for unlimited access from any mobile device. Features of the app include exception and GL report creation, access to registers and transactions, payables and customer balance management and income expense summaries.

“The new Accounting Relief offers accountants and their staffs the ability to do their professional accounting work more powerfully and efficiently than ever before,” notes Sharada Bhansali, Senior Vice President for Development at AccountantsWorld. “With a streamlined interface, simpler navigation, and full support for mobile platforms, we’re continuing and extending our mission of making accounting faster and more profitable for accountants. And our improved alerts and messaging help make it easier than ever for accountants to serve as their clients’ key financial and strategic advisor.”

Accounting Relief allows professionals to manage their clients, general ledger, accounts receivables and payables, bank reconciliation, write-up, trial balance and

financial reporting. The solution features a dashboard, alerts and secure messaging
