businesses' top challenges of winning new customers, reducing operating costs and growing revenue. Because companies with more accessible, usable data grow faster, Sage ERP X3 version 7 brings flexibility and an entirely redesigned Web and mobile experience, giving all employees the information they need wherever they are.

May. 15, 2014

Sage North America has announced the release of **Sage ERP X3 version 7**, a global business management solution for mid-sized companies, designed to address businesses' top challenges of winning new customers, reducing operating costs and growing revenue. Because companies with more accessible, usable data grow faster, Sage ERP X3 version 7 brings flexibility and an entirely redesigned Web and mobile experience, giving all employees the information they need wherever they are.

"We needed to automate our processes and increase efficiencies right across our business. Sage ERP X3 version 7 does just that," said Stephanie McConnell, CFO, **Vacuum Engineering & Materials**. "It is really easy to use and we can access information on mobile devices, making our business and our people more efficient, which ultimately means we can focus on growing our business."

How well employees can access, share and use information has a tremendous impact on a company's ability to serve customers and grow revenue. Simplifying the management of complex business processes across the organization, Sage ERP X3 version 7 provides users with personal dashboards and intelligence tools, allowing them to monitor performance, serve customers better and be notified of events that require attention, when and where it is needed. Above all, its scalability and global management capabilities help businesses adapt to change quickly and expand into new markets, without expensive software and infrastructure costs.

Joe Langner, executive vice president and general manager of midmarket solutions for Sage North America, said: "A recent research study commissioned by Sage

indicated that midmarket companies with improved data accessibility, quality,

The redesigned Sage ERP X3 version 7 tackles businesses' most pressing challenges with a host of new features, including a new intuitive Web and mobile interface based on HTML5 that supports common browsers and is highly personalizable by users. Version 7 also offers a variety of apps and comes with a mobility development kit, compatible with iOS, Windows Phone and most Android devices.
