public practice, business, industry, government, and education.

The 2014 conference theme is “Pillars of the Economy and the Profession.” With data-driven decision-making in government and nonprofit entities more important than ever, it is essential that accountants play a key role in elevating the performance of these organizations. In addition to sessions relevant to nonprofits, KMAAG, A-133, GASB, the economy, school finance law, and ethics, additional sessions are designed to enhance participant's ability to provide quality services to the organizations they serve. This includes sessions by Dennis Dycus on risk assessment, internal controls, and fraud as well as Toby Groves' communication track.

The keynote speaker at the conference will be Stephen Gauthier, director of the Technical Services Center of the Government Finance Officer Association.
