Payroll Transactions Sync with QuickBooks Online

Each time you run payroll, your total wages, taxes, and reimbursements will automatically appear in the expenses section of your QuickBooks Online account. If you cancel payroll or make a correction, Gusto will instantly make the necessary adjustments in QuickBooks Online. If you are a first time Gusto user, we'll pull in your company and employee data from QuickBooks Online to streamline your setup process.

Support for Accountants

As an accountant you can manage dozens of companies from a free, centralized dashboard with just a single login. View pending tasks, run payroll, manage client billing, and create reports in just a few clicks. We also offer a reseller program with benefits including free payroll for your practice, access to volume discounts, direct or client billing, and a dedicated account manager.

Pay-as-you-go workers' comp

Workers' compensation insurance is important for protecting your business and your team. Gusto helps you get covered easily from within your account. Upon selecting a policy, your premiums are calculated automatically based on your payroll so you'll never have to make a lump sum payment.
