New features and a new pricing model are now available to small businesses who use Sage One Accounting, a cloud-based small business accounting, invoicing and management system from [Sage North America](#).

Sage One Accounting is available in free and premium subscription versions, offering features for electronic invoicing, cash flow management, and financial analysis. Designed for new and growing small businesses, Sage One Accounting helps small business owners take care of their daily tasks quickly so they can get back to running their business.

In the [2015 State of the Startup Survey](#), Sage found that 36 percent of surveyed small business “nurturers” (third parties such as venture capitalists, angel investors, accountants, and attorneys) indicated they have a somewhat to extremely low trust of financial statements they receive from startups. At the same time, when startups

were asked about how they handle accounting for their business, 21 percent do
