available for both iOS and Android mobile devices. Online Payroll offers an easily navigated user interface that offers accountants a Client Overview screen, where they can easily access all of their clients from one screen. Conveniently, accounting firms can also access their own company's payroll from this screen as well.

Designed exclusively for accounting professionals, Intuit Online Payroll offers a To-Do list for each active client, including a link to export payroll data to QuickBooks. Accountants can define user levels, allowing the client access to as much or as little of the payroll program as desired. Users are provided pay date reminders, and entering payroll data is straightforward and can be done either manually or by importing time data.

Intuit Online Payroll easily processes both multiple earnings and multiple deduction fields, with users able to set up the level of detail for each, including two hourly rates for the same employee, cash and paycheck tips, holiday and bonus pay, commissions and allowances, overtime and double overtime, HSA contributions, and other reimbursements.

Intuit Online Payroll allows firms to easily manage multiple clients, and tax tables are available for all 50 states. The product easily supports multi-state taxes, and the product supports computer printed checks, manual checks (after the fact), or direct deposit. Users receive an email reminder when federal and state taxes are due, and handle all payments directly.

Reporting & Monitoring: 4.75 Stars

Intuit Online Payroll processes all federal payroll compliance filing and required tax payments. Users can choose when to pay taxes, choosing the earliest date, latest date, or another date. Federal forms such as 941's are automatically filled out, with users simply clicking the submit button after review to file the form electronically. The
