Data

Jan. 15, 2016

A new partnership between accounting and business management software provider [Sage](#) and small business cloud computing hosting provider [Cloud9 Real Time](#) lets accountants connect with their clients' data in QuickBooks desktop in a hosted environment.

Sage View empowers accountants to track client performance, accessing key client data from multiple accounting solutions in one place. Sage View offers customization opportunities within screens, reports and KPIs, and further insight and prioritization of follow-up or action items is available with drill-down capabilities. Turning numbers into insights and advice helps deepen the relationship between the accountant and client, positioning the accountant as a client's most valued and trusted financial advisor.

Sage View may be implemented with the accountant's current portfolio of solutions,
