they need to address multiple governance, risk and compliance (GRC) objectives through a single, unified technology platform.

Feb. 22, 2016

Global consulting firm Protiviti has been named a Challenger by Gartner, Inc., in the "Magic Quadrant for Operational Risk Management Solutions" for its ability to execute and completeness of vision1 for the Protiviti Governance Portal. The Protiviti Governance Portal provides companies with the visibility and oversight they need to address multiple governance, risk and compliance (GRC) objectives through a single, unified technology platform.

According to the report, "Gartner defines operational risks as those risks that 'relate to the uncertainty of daily tactical business activities, as well as risk events resulting from inadequate or failed internal processes, people or systems, or from external events.' Operational risk management (ORM) software solutions allow organizations to aggregate and normalize data from multiple data sources, including operational and financial systems, as well as from external sources such as regulatory alerts and

loss event databases." The report adds, "By providing a better understanding of these

platforms, or SharePoint. As a result, our clients launch their ORM initiatives with greater confidence that they will achieve the results they expect and need to meet their operational and regulatory objectives."

The Governance Portal is a comprehensive software platform that integrates content and commonly accepted and proprietary frameworks with world-class consulting expertise in order to provide organizations with the visibility and insight needed to manage and mitigate current and future risk and compliance issues. Protiviti's expert consultants have worked with thousands of global clients, and the Governance Portal has the built-in knowledge needed to deliver targeted GRC software solutions that address immediate needs while facilitating convergence toward synergistic, value-added GRC practices.
